

VINTAGEVIEW®
MOVING WINE STORAGE FORWARD

2026 HOME CATALOG

Twenty-five years of designing a truly welcoming space for wine lovers.

This look book celebrates wine storage as part of the architecture of the home.

Organized by room, the pages that follow showcase how wine lives alongside daily life, entertaining, and quiet moments alike. From refined kitchen installations to statement rooms built for gathering, each space reflects a balance of craft, proportion, and purpose.

Together, these projects mark a quarter century of evolving design, shaped by the homes they inhabit and the people who live in them.

- 4 Design & Support
- 6 Kitchen Spaces
- 12 Dining Rooms
- 18 Entertainment Areas
- 24 Built-In Features
- 30 Renovated Spaces
- 36 Product Specifics

HOW WE HELP HOMEOWNERS

Creating a wine space at home should feel exciting, not overwhelming. Whether you're upgrading a corner of your kitchen or designing a dedicated room, we provide the guidance, tools, and support to make the process clear and enjoyable.

Personal Project Support 1

From the earliest sketches to the finishing touches, our team partners with you to understand your goals and the way you hope to use the space. We help refine ideas, explore possibilities, and ensure your project reflects your taste and lifestyle.

Complimentary Design Services 2

Our design support gives you a detailed look at your future cellar before anything is built. With measured layouts, drawings, and optional 3D renderings, you can visualize the final result with confidence and make decisions that feel right for your home.

Access to Trusted Professionals 3

When your project calls for additional expertise, we connect you to our network of **signature partners**. From cooling experts to local installers, we'll help you find the right collaborators whenever you need an extra hand or added technical insight.

Reliable Delivery & Ongoing Care 4

Your wine racks arrive when you're ready for them, whether you plan to install yourself or coordinate with a contractor. And once everything is in place, you'll have lifetime warranty coverage and a support team available whenever questions arise.

KITCHEN SPACES

The kitchen is where life happens, from everyday routines to gatherings that linger. These designs show how wine storage can be woven into the room itself, adding depth, warmth, and a sense of permanence to the heart of the home.

The W Series is designed to grow with the space around it.

First introduced 25 years ago as a wall-mounted solution, it has continued to evolve, allowing wine storage to extend beyond the wall while maintaining visual balance.

BUILT-IN FEATURES

A built-in approach offers the rare chance to design with intention from a clean slate. These projects show how wine storage can be planned intentionally, becoming an architectural feature that feels natural to the space.

 Los Angeles, CA

The Evolution Series is defined by its supporting rods and open structure.

Offered in three distinct applications, it can rise as a Wine Tower, span a Wine Wall, or appear here as the Low Profile, the slimmest wine storage on the market, designed to sit close to the surface without visual weight.

Evolution Wine Tower

SPECS

This striking, freestanding rack showcases your bottles like works of art, with a label-forward design that adds a touch of modern sophistication to any space. Crafted from durable steel and virtually invisible acrylic, it seamlessly blends into modern decor.

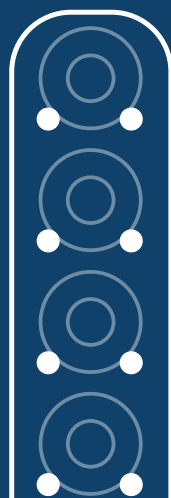

Freestanding wine racks

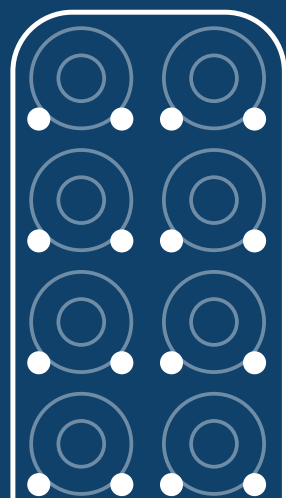

Evolution Wine Wall

The Wine Wall redefines bottle storage with its sleek, rod-based design. It enhances visual flow with increased vertical spacing, ideal for open-concept layouts or upgraded wall treatments. Its versatile design seamlessly accommodates standard, Champagne, Pinot Noir, and Magnum bottles in the same row. Designs well with Low Profile.

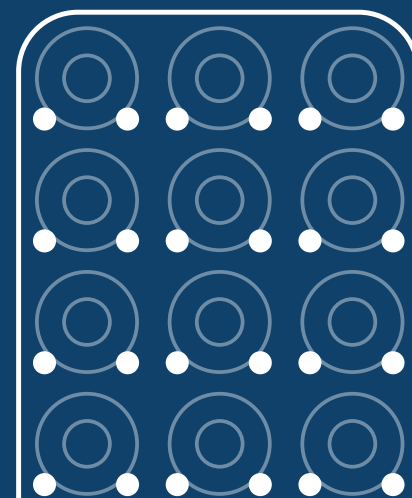

Drywall and Wood hardware included; also suitable for masonry walls (sold separately)
